MADE IN FLORIM

La ricerca della bellezza fa parte del patrimonio genetico dell'essere umano

In Florim questo istinto per la creatività si fonde con la passione e incontra la più moderna tecnologia produttiva per dar vita ad un nuovo tipo di prodotto. Un progetto morale non solo bello ma anche a basso impatto ambientale e pensato per far star bene le persone nel loro spazio. Abbiamo una lunga storia da raccontare e una gran voglia di guardare avanti in un futuro fatto di **bellezza, innovazione e sostenibilità**.

The pursuit of beauty is part of the human genetic heritage

*At Florim, this instinct for creativity merges with passion and meets the most advanced production technology to create a new kind of product. A moral project that is not only beautiful but also environmentally friendly, designed to enhance well-being in personal spaces with a low environmental impact. We have a long story to tell and a strong desire to look forward to a future built on **beauty, innovation, and sustainability**.*

ALTAGAMMA

La bellezza e lo stile italiani nel mondo

Vocazione estetica, heritage culturale e forte identità sono alcuni degli elementi condivisi da Florim e Altagamma, la Fondazione che dal 1992 riunisce le **imprese ambasciatrici dello stile italiano nel mondo**. Una comunione di vedute che ha permesso a Florim di essere accolta nel 2022 come nuovo membro. La Fondazione racchiude l'élite delle aziende italiane votate all'**alto di gamma**: il segmento di mercato in costante crescita in tutto il mondo e nel quale il Made in Italy gioca un ruolo da protagonista. Altagamma riunisce i marchi più prestigiosi nei settori moda, design, gioielleria, alimentare, ospitalità, motori e nautica.

Italian beauty and style around the world

*Aesthetic vocation, cultural heritage, and a strong identity are key elements shared by Florim and Altagamma, the foundation that since 1992 has brought together **companies that represent Italian style worldwide**. This shared vision led to Florim's induction as a new member in 2022. The Foundation includes the elite of Italian companies dedicated to the **high-end segment** - a market that continues to grow globally, where Made in Italy plays a leading role. Altagamma brings together the most prestigious brands in fashion, design, jewelry, food, hospitality, automotive, and yachting.*

I cinque elementi della nostra sostenibilità

Acqua, aria, terra e fuoco

Consideriamo i quattro elementi naturali come risorse uniche e preziose perché dal loro equilibrio dipende la sopravvivenza degli ecosistemi.

Il nostro compito è quello di proteggerli attraverso azioni quotidiane che, sommate, fanno la differenza.

Ci piace pensare alla persona come "quinto elemento", tassello determinante per cambiare lo stato di crisi del nostro pianeta attraverso gesti consapevoli e scelte responsabili. In Florim, le nostre persone sono ambasciatrici di un modo di fare attento e consapevole. Sono il nostro DNA, rappresentano una cultura aziendale fondata sul rispetto e la valorizzazione, che si estende a tutte le persone del territorio.

Un impegno verso le persone e l'ambiente che Florim ha preso molto seriamente, è scritto nel nostro statuto.

Certified

Corporation

Siamo **Società Benefit** e certificati **B Corp** dal 2020.

ACQUA / *water*

100%
riciclo delle acque
reflue di produzione
*100% recycling
of greenware waste*

In Florim **tutte le acque reflue del ciclo produttivo sono riutilizzate al 100%**. Nei nostri stabilimenti sono presenti delle **vasche di raccolta dell'acqua piovana** che recuperano l'acqua proveniente dalle precipitazioni. Per ottimizzare l'utilizzo delle risorse idriche abbiamo introdotto delle innovative **linee di squadratura a secco** che eliminano l'acqua utilizzata per la rettifica del materiale.

At Florim, all wastewater from the production cycle is 100% reused. Our facilities are equipped with rainwater collection tanks that capture water from precipitation. To optimize water resource usage, we have introduced innovative dry squaring lines that eliminate the need for water in the material rectification process.

ARIA / *air*

100%
autoproduzione dell'energia
elettrica necessaria
*100% self-production of the
required electrical energy*

Ci stiamo impegnando a ridurre al massimo le emissioni generate dal nostro processo e dal nostro prodotto. Possiamo contare su **127.000 mq di superfici ricoperte da impianti fotovoltaici** in grado di generare una potenza di picco di 12,3 MWp e due impianti di cogenerazione che ci permettono di autoprodotte fino al 100% dell'energia elettrica necessaria alle sedi italiane. Quando la luce del sole non basta, **acquistiamo energia elettrica** proveniente **esclusivamente da fonti rinnovabili certificate**.

We are committed to minimizing emissions generated by our processes and products. We have 127,000 square meters of surfaces covered with photovoltaic systems capable of generating a peak power of 12.3 MWp, along with two cogeneration plants that allow us to self-produce up to 100% of the electricity needed for our Italian facilities. When sunlight is not enough, we purchase electricity exclusively from certified renewable sources.

The five elements of our sustainability

Water, air, earth, and fire

We conceive the four natural elements as unique and precious resources because the survival of ecosystems depends on their balance.

Our role is to protect them through daily actions that, when combined, make a difference.

We like to think of people as the "fifth element", a crucial piece in changing the current crisis of our planet through conscious actions and responsible choices. At Florim, our people are ambassadors of a mindful and attentive way of working. They are our DNA, embodying a corporate culture rooted in respect and appreciation, extending to everyone in our community.

This commitment to people and the environment is one that Florim takes very seriously—it's written into our bylaws.

*We are a **Benefit Corporation** and have been certified as a **B Corp** since 2020.*

TERRA / earth

100%
riciclo degli scarti crudi di produzione
100% recycling of raw production waste

Il nostro prodotto accoglie **oltre il 90% di materie prime di origine naturale** di altissima qualità. Ricicliamo il 100% degli scarti crudi di produzione e monitoriamo attentamente la catena di fornitura delle materie prime. I prodotti Florim accolgono **fino al 60% di materie prime riciclate**, la percentuale varia in base agli spessori e alle collezioni.

*Our products are made with **over 90% high-quality natural raw materials**. We recycle 100% of raw production waste and closely monitor our raw material supply chain. Florim products **contain up to 60% recycled raw materials**, with the percentage varying depending on thickness and collections.*

FUOCO / fire

100%
processo certificato ISO 9001
per la qualità, 50001 per
l'energia, 14001 per l'ambiente
*Our process is 100% certified: ISO 9001 for
quality, ISO 50001 for energy management,
and ISO 14001 for environmental management*

Il fuoco è l'elemento che cambia la materia e rende il prodotto ceramico **resistente** all'umidità, all'usura, agli agenti chimici e atmosferici. Il nostro gres viene cotto a circa 1200 gradi, questo lo rende un **materiale che dura nel tempo, sicuro e igienico**. Una qualità testimoniata da **numerose certificazioni di prodotto e processo**.

*Fire is the element that transforms matter, making ceramic products **resistant** to moisture, wear, and chemical and atmospheric agents. Our porcelain stoneware is fired at around 1200 degrees, **making it a durable, safe, and hygienic material**. This quality is backed by **numerous product and process certifications**.*

CARBONZERO

Le superfici Carbon Neutral di Florim

In linea con la nostra strategia che sposa un **paradigma di business a beneficio del pianeta**, dal 2023 promuoviamo CarbonZero: il progetto di superfici Carbon Neutral che compensano le emissioni di CO₂ generate dalla loro produzione e dal loro ciclo di vita.

Florim's Carbon Neutral surfaces

*Aligned with our strategy of embracing a **business paradigm that benefits the planet**, in 2023 we launched CarbonZero: an initiative dedicated to Carbon Neutral surfaces that fully offset the CO₂ emissions produced throughout their manufacturing and lifecycle.*

Scopri di più:
Find out more:

Misuriamo

Abbiamo calcolato l'impatto ambientale delle nostre superfici **lungo il ciclo di vita del prodotto*** perché vogliamo ridurre tutte le emissioni di CO₂, anche quelle che avvengono al di fuori dell'azienda.

We measure

*We have calculated the environmental impact of our surfaces **along the product life cycle** (*) because we aim to reduce all CO₂ emissions, including those that occur outside.*

Riduciamo

Per contenere le emissioni della nostra attività, **abbiamo ridotto l'uso di risorse naturali** e investito per rendere il processo produttivo **più sostenibile**: fino al 100% in termini di acqua, energia elettrica e recupero degli scarti crudi.

We reduce

*To contain the emissions from our activity, **we have reduced the use of natural resources** and invested in making the production process **more sustainable**: up to 100% in terms of water, electricity, and raw waste recovery.*

Compensiamo

Promuoviamo un impatto positivo: le collezioni CarbonZero **compensano tutta la CO₂ emessa durante il loro ciclo di vita**, supportando progetti certificati che producono energia pulita nei paesi in via di sviluppo. Il progetto CarbonZero unisce alla consueta bellezza e al design dei prodotti Florim l'impatto positivo dato dalla compensazione di CO₂**.

We offset

***We promote a positive impact**: CarbonZero collections **offset all the CO₂ emitted during their life cycle**, supporting certified projects that produce clean energy in developing countries. The CarbonZero project combines beauty and design with the positive impact given by CO₂ offsetting (**).*

(*) dato certificato EPD – numero di registrazione EPDITALY0462

(**) la compensazione avviene attraverso l'acquisto di crediti di carbonio CER (Certified Emission Reductions) sul registro CDM (Clean Development Mechanism) dell'UNFCCC (United Nations Framework for Climate Change). per il calcolo è stato utilizzato il valore di 19,05 kg di CO₂-eq / m² con densità media di 21,97 kg/m² – dato calcolato partendo dal valore di GWP total (EPD Florim che considera l'intero ciclo di vita del prodotto) integrando le attività di manutenzione e pulizia ipotizzando una durata di 60 anni. Florim si impegna annualmente nel monitoraggio, riduzione e compensazione delle emissioni di gas ad effetto serra delle collezioni CarbonZero.

(*) EPD certified data – registration number EPDITALY0462

(**) Offsetting is achieved through the purchase of CER (Certified Emission Reductions) carbon credits on the CDM (Clean Development Mechanism) registry of the UNFCCC (United Nations Framework for Climate Change). For the calculation, a value of 19.05 kg of CO₂-eq / m² with an average density of 21.97 kg/m² was used – this data was calculated starting from the total GWP value (EPD Florim that considers the entire life cycle of the product) integrating maintenance and cleaning activities assuming a lifespan of 60 years. Florim commits annually to monitoring, reducing, and offsetting the greenhouse gas emissions of the CarbonZero Collections.

Architectural design

Materiale tecnico seguendo le tendenze dell'architettura, per applicazioni quali pavimentazioni industriali e realizzazioni pubbliche a medio e ad alto traffico, come aeroporti, centri commerciali, ristoranti, uffici, negozi, ma anche applicazioni residenziali con un mirato contenuto estetico.

Technical material in line with architectural trends, for applications such as industrial flooring and public buildings with medium to high footfall, such as airports, shopping centres, restaurants, offices, shops, as well as residential applications featuring a targeted aesthetic content.

Matériau technique suivant les tendances de l'architecture, pour des applications en tant que sols industriels et des réalisations publiques à trafic moyen et intense, comme les aéroports, les centres commerciaux, les restaurants, les bureaux, les magasins, mais aussi pour des applications résidentielles au contenu esthétique ciblé.

Technisches Material im Einklang mit den architektonischen Trends für Anwendungen wie Industrieböden und mittelhoch bis stark frequentierte öffentliche Bereiche wie Flughäfen, Einkaufszentren, Restaurants, Büros und Läden, aber auch für Wohngebäude mit wertiger Optik.

Material técnico que sigue las tendencias de la arquitectura, creado para pavimentos industriales y ambientes públicos de mediano y alto tránsito —como aeropuertos, centros comerciales, restaurantes, oficinas y tiendas—, pero también para aplicaciones residenciales con un refinado contenido estético.

EARTHTECH

Architectural design

EARTHTECH

Terra e tecnologia sono divenuti un binomio sempre più reale, portatore di una nuova consapevolezza che parte dalla nostra storia per creare un futuro responsabile. **Earthtech** è la sintesi di una mentalità contemporanea, capace di essere soggetto attivo nelle regole della costruzione circolare. Un prodotto tecnico tutta massa che amalgama insieme superficie e spessore, nato dalla miscelazione spontanea di piccoli frammenti e pigmenti di diversi colori. **Sei cromie** essenziali in accordo con le sfumature degli elementi naturali caratterizzano questa serie che propone tonalità facilmente abbinabili tra loro. **Ground** e **Flakes** sono le due famiglie estetiche in cui si sviluppa la collezione attraverso una palette cromatica neutra e due colori intensi, giallo e arancione. Nuove finiture, comfort e glossy-bright, ne arricchiscono le possibilità di utilizzo.

EARTHTECH

Earth and technology have increasingly become a truly dual concept, bearer of a new awareness coming from our past to create a responsible future. **Earthtech** is the synthesis of a contemporary mindset, capable of being an active player within the rules of circular construction. It is a full-bodied technical product which mixes together surface and thickness, born from the spontaneous blending of small fragments and pigments of different colours. **Six essential hues** in harmony with shades of natural elements are the distinguishing features of this series which offers easily matchable tones. **Ground** and **Flakes** are the two aesthetic families in which the collection develops, through a neutral colour palette and two intense colours, yellow and orange. New finishes, Comfort and Glossy bright enhance their potential uses.

La terre et la technologie forment désormais un binôme de plus en plus concret, porteur d'une nouvelle prise de conscience qui part de notre histoire pour créer un futur responsable. **Earthtech** est la synthèse d'une mentalité moderne, à même de jouer un rôle actif dans les règles de la construction circulaire. Un produit technique pleine masse qui amalgame surface et épaisseur, né du mélange spontané de petits fragments et pigments de diverses couleurs.

Six colorations essentielles en accord avec les nuances des éléments naturels caractérisent cette série qui propose des teintes pouvant facilement être combinées. **Ground** et **flakes** sont les deux familles esthétiques au sein desquelles se développe la collection à travers une palette chromatique neutre et deux couleurs intenses, le jaune et l'orange. De nouvelles finitions, Comfort et Glossy bright, enrichissent les possibilités d'utilisation.

Erde und Technologie wurden zu einer immer reelleren Kombination, zum Träger eines neuen Bewusstseins, das unsere Geschichte als Ausgangspunkt für die Schaffung einer verantwortungsbewussten Zukunft nimmt. **Earthtech** ergibt sich aus einer zeitgenössischen Mentalität, die bei den Regeln zur Kreislaufbauwirtschaft eine aktive Rolle spielt. Ein ganzscherbiges technisches Produkt, das Oberfläche und Masse vermengt und aus der spontanen Mischung kleiner Fragmente und verschiedenfarbiger Pigmente entsteht. **Sechs Farben** widerspiegeln die Nuancen der Naturelemente und zeichnen diese Serie mit ihren untereinander leicht kombinierbaren Farbtönen aus. **Ground** und **Flakes** sind zwei ästhetische Varianten, in denen sich die Kollektion durch eine neutrale Farbpalette und zwei intensive Farben, gelb und orange, entwickelt. Neue Oberflächen, Comfort und Glossy-Bright, vervielfältigen ihre Einsatzmöglichkeiten.

La tierra y la tecnología se han convertido en un binomio cada vez más real, portador de una nueva sensibilidad que echa raíces en nuestra historia para crear un futuro responsable. **Earthtech** es la síntesis de una forma de pensar contemporánea, capaz de participar activamente en la economía circular del sector de la construcción. Un producto técnico toda masa que conjuga superficie y grosor, fruto de la mezcla espontánea de pequeños fragmentos y pigmentos de varios colores. **Seis colores** básicos, acordes con los matices cromáticos de los elementos naturales, componen esta serie caracterizada por tonalidades fáciles de combinar entre sí. **Ground y flakes** son las dos familias estéticas en las que se articula la colección, por medio de una paleta cromática neutra y dos colores intensos: el amarillo y el naranja. Se enriquece con los nuevos acabados Comfort y Glossy-bright, que amplían sus posibilidades de uso.

In relazione alle differenti tecnologie produttive l'accostamento di prodotti con spessori diversi potrebbe presentare delle disomogeneità, se ne sconsiglia pertanto l'abbinamento.
 Due to the different production technologies, contiguous installation of products with different thickness may give a non-homogeneous result. For this reason we do not recommend this option. / Vu
 que différentes technologies de production sont utilisées avec des épaisseurs différentes, des problèmes d'homogénéité pourraient se présenter, il est donc déconseillé de les poser ensemble. / Wegen
 unterschiedlicher Produktionstechnologien können die Fliesen mit verschiedenen Materialstärken optische Differenzen aufweisen. Von einem direkten Aneinanderlegen wird deshalb abgeraten. / Dadas
 las diferentes tecnologías productivas, la combinación de productos de diferentes espesores podría dar lugar a heterogeneidad, por lo que se desaconseja mezclarlas.

Vantaggi tecnici - Technical advantages - Avantages techniques Technische Vorteile - Ventajas técnicas

- Lastra monolitica compatta di spessore 2 cm squadrata e rettificata
- Compact monolithic slab 2 cm thick squared and rectified
- Dalle monolithique compacte de 2 cm d'épaisseur, égarrie et rectifiée
- Kompakte monolithische Platte, 2 cm dick, rechteckig und scharfkantig geschliffen
- Losa monolítica compacta de 2 cm de espesor, escuadrada y rectificada.

- INGELIVO
- FROST RESISTANT
- INGÉLIF
- FROSTBESTÄNDIG
- RESISTENTE A LA HELADA

- ELEVATA RESISTENZA AI CARICHI STATICI
- HIGH STATIC LOAD RESISTANCE
- RÉSISTANCE ÉLEVÉE AUX CHARGES STATIQUES
- HOHE STATISCHE BELASTBARKEIT
- ELEVADA RESISTENCIA A LAS CARGAS ESTÁTICAS

- FACILE DA POSARE
- EASY TO INSTALL
- FACILE À POSER
- VERLEGELEICHT
- FÁCIL DE COLOCAR

- ANTISCIVOLO R11
- ANTI SLIP R11
- ANTIDÉRAPANT R11
- RUTSCHFEST R11
- ANTIDESLIZANTE R11

- RESISTENTE AGLI SBALZI TERMICI
- THERMAL SHOCK RESISTANT
- RÉSISTANT AUX ÉCARTS THERMIQUES
- TEMPERATURWECHSELBESTÄNDIG
- RESISTENTE A LAS OSCILACIONES TÉRMICAS

- FACILE DA PULIRE
- EASY TO CLEAN
- FACILE À NETTOYER
- REINIGUNGSLEICHT
- FÁCIL DE LIMPIAR

- RIMOVIBILE E RIUTILIZZABILE
- REMOVABLE AND REUSABLE
- DÉMONTABLE ET RÉUTILISABLE
- ENTFERNBAR UND WIEDERVERWENDBAR
- DESMONTABLE Y REUTILIZABLE

- INATTACCABILE DA AGENTI CHIMICI E MUFFE
- IMPERVIOUS TO ATTACK BY CHEMICALS OR MOULD
- RÉSISTANT AUX AGENTS CHIMIQUES ET AUX MOISSISSURES
- UNANGREIFBAR DURCH CHEMISCHE STOFFE UND SCHIMMEL
- RESISTENTE A LOS AGENTES QUÍMICOS Y A LOS MOHOS

Le lastre ceramiche sono sottoposte a un trattamento di compattazione termica che assicura resistenza e durata nel tempo. Il bassissimo assorbimento d'acqua rende perciò il materiale ingelivo. Ciò può comportare ristagni d'acqua superficiali anche per materiale installato a regola d'arte. / Ceramic tiles undergo a compacting thermal treatment that ensures resistance and durability. The low level of water absorption makes the slabs frost resistant. This could result in superficial water stagnations even if materials are installed in a workmanlike manner. / Les carreaux de céramique subissent un traitement thermique de compactage qui assure résistance et durabilité. Le bas niveau d'absorption d'eau rend les dalles résistant au gel. Il pourrait en résulter des stagnations d'eau superficielles, même si les dalles ont été installées dans les règles de l'art. / Die Keramikplatten werden einer thermischen Verdichtung unterzogen, welche die Widerstandsfähigkeit und Langlebigkeit sichert. Die extrem niedrige Wasseraufnahme macht das Material frostsicher. Die hohe Materialdichte kann, auch bei einer perfekten Verlegung, eine längere Abtrochnungszeit von angestaumtem Wasser zur Folge haben. / Las baldosas cerámicas se someten a un tratamiento de compactación térmica que asegura resistencia y durabilidad. La baja absorción de agua hace que las baldosas resistan al hielo. Esto podría resultar en estancamientos superficiales de agua, incluso si los materiales están instalados según las reglas del arte.
